

Formative usability questionnaire that will allowed us to assess the usability of the SSCF website:

1. On a scale of 1-10, how easy was it to find the information you were looking for on the SSCF's Research Page website?
 - 7. The navigation menu was intuitive, and the categories were clearly labeled. However, the information should have a different page open rather than giving the user the entire pdf.
2. Were you able to find the information you needed about SSCF's mission and value?
 - Yes, the information about SSCF's mission and value was easy to find, and it was clear and concise.
3. Were you able to easily locate and use the search function on the SSCF's Research Page website?
 - Yes, the search function was prominently displayed and easy to use.
4. Were the images and graphics on the SSCF's Research Page visually appealing and relevant to content?
 - Yes, the images and graphics were visually appealing, relevant, and helped to convey the message of the content.
5. How likely are you to return to the SSCF's website in the future, based on your experience today?
 - I'm very likely to return to the SSCF's website in the future. The website was easy to use, the information was well-presented, and the visuals were engaging.

During a group project, the student assigned to work with me reviewed our website and complimented it as "perfect" overall. However, they suggested that we remove the "Donate To Cause" button located at the top of our webpage. Despite their suggestion, our group decided against removing the button since we believed it would make the page appear too plain and uninteresting to users.
